

NORTHERN CROSS RAILROAD.—This road, which has been languishing for the last year, has received an impulse under new auspices.—The Quincy Herald learns that some parties at the east, who are interested in the work, have determined to take the remainder of its stock, and complete the road to Meredosia, as well as the Chicago branch to Galesburg. The road is somewhat crippled by the threatened "Pike County Railroad," from Naples to Hannibal, to which a charter has several times been refused by the Illinois Legislature.—[Chicago Democrat.]

The Democrat has discovered, doubtless, that the Meredosia part of the statement is a misrepresentation; as we predicted when the yarn was first told. We trust the Democrat and other papers which have published the statement, and thereby injured, unwittingly, the prospects of the proposed Pike County Road, will make the proper correction. It is due all parties that this should be done.—Pittsfield Free Press.

Horrible Suspicion.

The wife of William Ball, of Clarke county, was killed last winter by a shot through the head, which was then understood to have been accidental; the account given by the husband being that a child at play knocked down a loaded gun, which was standing in a corner of the room, and that in falling it was discharged and killed his wife, who was lying on the sofa.—Suspicious having been in some way excited, experiments, we understand, have been made with the gun, and the body of the wife disinterred and examined, and the result is a charge of murder against the husband. He was arrested a day or two ago in Woodford, where his friends reside, and where he has been most of the time since the death of his wife. He was to have a hearing before an examining court at Winchester yesterday. The families of both wife and husband are highly respectable.

[Frankfort Commonwealth.]

Died.

At his residence in Ralls County on the night of the 14th inst., Mr. PARKER DIMMIT. The consumption which ended his existence had afflicted him for several years.

THE INTRODUCTION OF

FILLEY'S STOVES

Into Northern Missouri, to any extent, has been in the last three years; since which time they have been gradually increasing the manufacture and sale of them; and although, owing to their being light and smooth, and something new, some little difficulty attended the sale and use at first, yet by always making Stoves and Castings of the best quality of Scotch Pig and Missouri Mountain Iron, they have proved to withstand fire better than any other Casting made in the western country. The furnace castings and hollow-ware particularly, have been superseded by it, wherever it has been brought into use, and always given satisfaction. Having lived here a number of years, and being permanently located here, purchasers can rely on our guarantee as to the quality of the article sold by us; and as to the operation of our celebrated Prize-Premium Cook Stove, just read the certificates of those who have used them, and are using them now. And another advantage a purchaser will have in buying a St. Louis stove of us, he would not only be getting a stove made of the best material in the world, but he can at any time get an odd piece or plate without any charge, by letting us know that such is wanted, as all our stoves are warranted, and, in case of imperfection, the article will be promptly made good to the purchaser, which he will not find the case with Cincinnati, Chicago, Pittsburgh, and Eastern made Stoves, as you cannot get any odd pieces. Even if they were warranted, it would be impossible to get odd plates from such a distance.

We, the undersigned, having used the St. Louis Stoves manufactured by G. F. Filley, of St. Louis, and sold by CARTER W. BRYAN, at Hannibal, Mo., take pleasure in recommending them to the public as superior in point of draft, durability, economy, convenience and ease of regulation, to any stove which we have ever used:

NEW COOK STOVES!!

Persons wishing to buy stoves, should give us a call, and examine our new patterns of

Having secured the agency of them for this city. This stove possesses advantages over common stoves, in thickness of the plate, and improvements in draft. It is given up by all stove dealers and manufacturers, to be the best pattern for a descending flue, of any stove now made East or West.

This stove was patented September, 1852, and wherever they have been used, have given general satisfaction. This stove weighs some forty pounds more to the number than any other stove ever brought to this city. The plates in them are from one-half to three-fourths of an inch in thickness. No. 1 weighs over 200 pounds. We warrant them all against fires. These stoves have a Patent Hot Air Flue, which carries the heat that is generated under the fire-plate down the front part of the stove, between two thick plates to the draft at the bottom of the stove, thereby adding great heat to bake with on the bottom, and remedying that which has always been a fault with stoves of a descending flue, heretofore. FIELD'S SCRAP BOOK—New Edition.
Literary and Miscellaneous Scrap Book.
CONSISTING of Tales and Anecdotes—Biographical, Historical, Patriotic, Moral, Religious, and Sentimental Pieces, in Prose and Poetry. Compiled by William Fields. Second edition, revised and improved.

The Footpath and Highway; or, WANDERINGS of an American in Great Britain. In 1851 and '52. By Benjamin Morgan. This volume embodies the observations of the author, made during eight months' wanderings, as a correspondent for American Journals; and as he traveled much on foot, differs essentially from those on the same countries, by other writers.

New Themes for the Protestant Clergy; CREEDS without Charity, Theology without Humanity, and Protestantism without Christianity; with Notes by the Editor on the Literature of Charity, Population, Pauperism, Political Economy, and Protestantism. The great question which this book discusses is, whether the Church of this age is what the primitive Church was, and whether Christians—both pastors and people—are doing their duty. Our author believes not, and, to our mind, he has made out a strong case. He thinks there is abundant room for reform at the present time, and that it is needed almost as much as in the days of Luther.

Barber's Shop.
PETER JOHNSON.

RESPECTFULLY offers his services to the public. He keeps the best quality of razors, and keeps them sharp. He will always pay strict attention to cleanliness and neatness. He cuts and dresses hair in a style that never fails to please his customers. As a knight of the scissors and razor he yields to none in Hannibal. His charges are reasonably low. As he intends to continue fitting up and improving his establishment, as fast as his means will allow, he hopes to have the patronage of the citizens of Hannibal whose well known chief characteristic of energy, leads them to desire to see everything on the progressive march. Recollect it is the shop nearest to Hickman's Stove Store. It is on the west side of Main street, two doors north of Bird street. (ap-23-d-ly)
